7 July 2020

Dear Steve,

I am writing on behalf of the staff here at the Royal Berkshire NHS Foundation Trust, to thank you for your extremely kind donation of hygiene hooks.

As you're aware, the COVID-19 pandemic has placed huge pressures on the NHS, and our staff here have been facing major challenges during this outbreak. The wellbeing of our staff is extremely important, and a key focus for us, and a major boost to morale has been the amazing generosity of local people and organisations.

Along with the direct benefits the donations have had, it has also meant a lot to everyone to know how much the local community is thinking of them, supporting and appreciating the work they are doing.

While we've been working through these unprecedented, uncertain and very anxious times, the consideration shown to us from organisations such as yours has been quite overwhelming and humbling.

Thank you again for all you have been doing for us.

Yours sincerely,

Steve McManus
Chief Executive

With thanks from
